WAS JOUBERT KILLED?

Startling Report That Boer Commander Was Shot In Battle.

LONDON OFFICE NOT ADVISED

According to the Information From Unofficial Sources Ladysmith Is Still Being Subjected to Bombardment.

Durban, Nov. 16.—The Times of Natal publishes a telegram from Lorenzo Marques, saying that General Joubert was killed in action on Thursday, Nov. 9.

London, Nov. 16.—Nothing is known at the war office of the reported death of General Joubert.

London, Nov. 16.—The most startling news from the seat of war is the report of the death of General Piet Joubert, the commander-in-chief of the Boer forces. Though the report comes from many different quarters it obviously lacks confirmation. At the same time, many people believe the report to be well founded, as the general's death is said to have occurred Nov. 9, when the Boer riflemen were understood to be within 1,500 yards of Ladysmith. As severe fighting between the British and the Boers the same day has since been reported, it is regarded in some quarters as quite possible that General Joubert, always noted for his personal courage and coolness, may have dangerously exposed himself in a personal reconnaissance of the British position.

If Joubert was really killed on the battlefield, it would seem to be the fittest death for such a gallant soldier.

Even his foes admit that he fought squarely and fairly, and his action, when General Symonds died, in cabling his sympathy to the bereaved widow, established him to the high regard of all soldiers. It is claimed that the death of Joubert would be likely to lead to the adoption by the Boers of bolder and more active tactics, as it is well known General Joubert was a cautious and conservative commander, and that he had considerable difficulty in restraining his hot-headed followers. The dribbles of news bring the information that Ladysmith was still undergoing bombardment on Sunday from six 40-pounders, while the British naval guns were silent. The Boers, it consequently appears, have got more heavy guns into position, while either the British ammunition has given out or the British gunners are reserving their fire in view of the poor practice made by the besiegers.

The reports that the Boers have penetrated southward from Colenso to Chieveley, where they are said to have cut the railroad, shows, it is claimed, that they are adopting a proper strategic plan to impede the advance of the British relieving force.

Perhaps this may turn out to be General Schaburger's force, which, when last heard from, was raiding Zululand. This force, it is asserted, may next be heard from south of Estcourt, which they will, in all likelihood attempt to isolate before further reinforcements arrive. Indeed it is already reported that a Boer force has been seen in the neighborhood of the line north of Mooi river.

According to the latest advices from British sources at Estcourt the Boers are suffering from lack of supplies, though the large stores the British left when they evacuated Newcastle and Dundee must have been of great assistance to the Boer commissariat. But the task of maintaining a complete investment of Ladysmith is probably proving onerous.

Ladysmith seems to be well provisioned and the entrenchments are daily being strengthened.

The Boers have renamed Dundee "Meyersdorp," after General Lucas Meyer, whose forces fought those of General Symonds there.

Bewailed Their Fate.

London, Nov. 16.—The Times Durban correspondent, under date of Sunday, Nov. 12, says: "Chaplain Matthews arrived here. He testifies to the splendid defense of the Royal Irish Fusiliers and the Gloucester regiment against an overwhelming force of Boers, who held positions on three sides of the British troops. Retirement on the fourth side was impossible, as the way was too precipitous, and surrender was the only alternative to annihilation, as the Boers were on the point of opening a shell fire upon them.

It was pathetic to hear the Fusiliers bemoaning their misfortune, several, with tearful eyes, saying, 'Father, I would rather have been shot than this.' 'Commandant General Joubert or-

dered Father Matthews released, on condition that he assist the Boer wounded, but afterward countermanded the order, and the chaplain was taken with the other prisoners in wagons 20 miles to Waschbank, where he, with the rest of the captured, was placed on a train for Pretoria. The Boers have few tents, and are thought to be suffering severe privations."

Bombardment Resumed.
Estcourt, Natal, Nov. 16.—The West Yorkshire regiment has arrived here. The bombardment of Ladysmith has been resumed. Heavy firing was heard. An armored train was sent out on a reconnaissance toward Colenso.

THE GRANGERS

Will Take Drastic Action Against the Trusts.

Springfield, O., Nov. 16.—There is every indication that all important resolutions submitted to the National Grange for adoption will be based on the grand master's address, declaring war upon the trusts in no uncertain manner, and carrying with them suggestions as to the measures necessary to secure the proper legislation to put them out of business. As it was, the sentiment of the grand master's speech, so it is the sentiment of the hotel lobbies, where these matters are discussed in common.

The officials submitted their reports, which were of an encouraging nature indicating the grange to be growing both in membership and influence.

To Sound Legislative Candidates.

Frankfort, Ky., Nov. 16.—Taylor's friends have begun a quiet canvass of the members of the legislature, sounding them as to how they would vote on a contest should the state election board throw out Knox, Johnson or Pulaski counties, and also 1,100 votes cast in Nelson for W. P. instead of W. S. Taylor. It is said four Democratic members of the house, and at least six Democratic senators have been found so far who will not vote to seat Goebel. This movement on Taylor's side is construed to indicate the opinion that Goebel will be given a certificate of election from the state board.

Head-End Collision.

Louisville, Nov. 16.—A head-end collision between passenger trains occurred at Pleasure Ridge Park, Ky., eight miles south of this city. Passenger train No. 41 on the L. H. and St. L., bound for St. Louis, and the Illinois Central, northbound from New Orleans, came together in a dense fog. Injured: G. B. Shaw, postal clerk, head cut, leg broken, and thought to be internally injured, will die; W. H. Hinsley, baggage-master of L. H. & St. L., badly bruised and cut; A. M. Evans, conductor L. H. & St. L., badly sprained ankle and severe bruises.

Tin Plate Trust.

Washington, Nov. 16.—William H. Griffith, who established an independent tin plate manufactory at Washington, Pa., was before the industrial commission. He said the American Tin Plate company not only practically controls the tin plate product, but also the production of tin plate machinery, there being only one independent machinery plant left.

Short of Coal.

Lebanon, Pa., Nov. 16.—The American Iron and Steel Manufacturing company has suspended operations in all its local puddling and rolling mills. The cause assigned is an exhausted coal supply, resulting from the car famine, which has affected industrial establishments all over the state. Fully 1,500 workmen are idle for an indefinite time.

The Official Vote.

Jackson, Miss., Nov. 16.—The secretary of state made an official announcement of the returns from the recent state election. Longinos, Democratic candidate for governor, received 42,227 votes, against 6,421 for Pre-witt, Populist; Longinos' majority, 35,806. The vote on the Noel amendment was: Yeas, 21,168; nays, 8,643.

Witnesses on Hand.

Lansing, Mich., Nov. 16.—Ten witnesses, including Speaker Adams of the last legislature, have arrived to give evidence before the grand jury, which convened here. The jury will consider, it is said a bill proposing to buy \$100,000 worth of law books, and which, it is alleged, the book concern was willing to spend \$30,000 to pass.

A Correspondent Killed.

London, Nov. 16.—The Daily Mail's Mafeking correspondent says E. G. Parslow, the correspondent of the Daily Chronicle, was shot through the brain and instantly killed by a revolver discharged accidentally in the hands of Lieutenant Monchison. Mr. Parslow was a Cape Town man.

LOANS AND DEPOSITS.

Remarkable Increase of Both During the Past Ten Years.

FIGURES OF COMPTROLLER.

Results of the Investigation Indicate a Magnitude of Banking Resources Unparalleled in World's History.

Washington, Nov. 16.—Charles G. Dawes, comptroller of the currency, has made public the results of the investigation which he made into the number of loans and deposit accounts, rates of interest and resources of the combined banks of the United States in the years 1889, 1894 and 1899.

In collecting this data nearly 10,000 reports from banks have been examined and compiled.

The investigation into the number of loans and deposit accounts and average loans and deposits is the first ever made, covering the United States, either in reference to the financial system of banks other than national. The results of this investigation indicate a magnitude of banking resources and a rate of growth in number of deposit accounts which is unparalleled in the financial history of the world.

The comptroller states that the results of the combined banks are carefully estimated upon the basis of ratios found to exist in the reporting banks, and that they may be regarded as substantially accurate. He is careful to call attention to the fact that the number of deposit accounts and loans given in his figures must not be confused with the number of depositors and borrowers since the same individual may have loans and deposits in several banks, each of which would make a separate report to the comptroller. While therefore the actual number of borrowers and depositors is much less than the number of loans and deposit accounts, the growth in the latter is evidence of the general growth in the number of individual visitors and borrowers.

The general deductions from the investigation, covering the last 10 years, is given by the comptroller as follows:

"First—That the number of individual depositors in the banks of the United States is constantly increasing, as indicated by the large increase in the number of deposit accounts of the combined banking systems, estimated as follows: July 12, 1889, 7,203 banks reporting 6,708,971; July 18, 1894, 9,508 banks reporting 8,993,766; June 30, 1899, 9,732 banks reporting 11,432,636.

"The estimated grand total for the year 1899, based upon banks reporting and statistics as to nonreporting banks obtained from tax returns to the commissioner of internal revenue, shows 13,153,874 deposit accounts in 12,804 banks.

"Second—That there is a demand from borrowers for the use of the greater proportion of the deposits of banks, and while the number of individual borrowers is increasing, the depositors greatly outnumber the borrowers, and the increase in the number of borrowers is much less than the increase in the number of depositors as indicated by the rate of increase in the number of loans, estimated as follows: July 12, 1889, 7,203 banks reporting 2,188,541; July 18, 1894, 9,508 banks reporting 2,990,694; June 30, 1899, 9,732 banks reporting 3,911,664.

"The estimated grand total for the year 1899, based upon banks reporting and statistics as to nonreporting banks obtained from tax returns to the commissioner of internal revenue, shows 5,067,252 loans in 12,804 banks.

"Third—That the growth of the banking systems is being characterized by a gradually lessening rate of interest charged on loans.

"Fourth—That a gradually lessening rate of interest is being paid upon deposits.

"Fifth—That, considering the large clientele of national and savings banks, the average deposit of the individual or corporation is slowly increasing.

"Sixth—That the average size of the loans, all classes of banks considered, has not varied much in the last decade.

"Seventh—That the growth in the aggregate of individual deposits has increased. The estimated grand total for the year 1899, based upon banks reporting and statistics as to nonreporting banks obtained by tax returns to the commissioner of internal revenue, is \$7,513,854,361 in 12,804 banks.

"Eighth—That the growth in the aggregate loans has increased. The estimated grand total for the year 1899, based upon banks reporting and statistics as to nonreporting banks obtained from tax returns to the commissioner of internal revenue, is \$5,751,467,519

RACE FOR LIFE.

The Steamer Conestoga Sinks at the Mouth of Chicago Harbor.

Chicago, Nov. 16.—The steamer Conestoga of the Anchor line sank at the mouth of the harbor after a race for life. The steamboat, bound into Chicago from Buffalo in the dense fog that hung over Lake Michigan, ran into the half-way crib, a mile and a half out from the harbor entrance, and a great hole was stove into her bow.

The bow commenced to fill with water fast, and there was a disposition to rush for the boats. But the captain gave orders to turn on all steam and make a quick run for the harbor, and commanded the men to stand at their posts. The Conestoga was settling fast and her speed was diminishing greatly before half the distance to the piers at the mouth of the harbor had been traversed. As the mouth of the harbor was gained floods of water poured into the fire hold, drove the stokers up the ladders to the deck, and at last extinguished the fires under the boilers. The Conestoga came to a stop as her keel rubbed hard in the mud at the bottom of the harbor entrance, and she settled fast. The water did not reach the upper deck and the crew were safe.

The steamer was loaded at Buffalo and carried freight from the eastern points. It is estimated the loss on the cargo will alone be in the neighborhood of \$100,000.

Firemen Injured.

Chicago, Nov. 16.—Fire destroyed a 7-story building in the heart of the downtown retail district, and caused a loss estimated at \$150,000, and injured a score of firemen and spectators. For a time it looked as though the flames would spread and destroy hundreds of thousands of dollars worth of property in that valuable section of the city. Shortly after the fire started an explosion blew out part of the front of the building. Glass, blazing fire brands and debris were scattered in all directions. Among the injured were Chief of the Fire Department D. J. Swenle and his two assistant marshals, Musham and Townsend. All three were badly cut by flying glass, the two latter being forced to retire to have their wounds dressed.

Struck a Store.

Estcourt, Natal, Nov. 16.—The armored train has returned from another trip on which Colenso was reached. No Boers were seen. On its way back the train picked up a native runner at Frere, carrying a number of letters, who had been searched by the Boers, but had in some manner managed to keep his documents from falling into the hands of the searchers. This runner stated that Ladysmith was bombarded on Thursday, Nov. 9, by six 40-pounders, one shot from which struck Illing's store. The British big naval guns were still silent when he left. Little damage was done by the Boer bombardment, and there were few casualties.

Bell People Pleased.

New York, Nov. 16.—After negotiating for more than a week, the capitalists who control the Knickerbocker Telephone company and the People's Telephone company, the two local outside concerns organized to fight the Bell Telephone company in this city, have failed to agree upon a basis of consolidation. Indications, therefore, point to three rival telephone companies in this city, and the Bell company is said to be pleased that its opponents did not join forces.

Pearl Hart Acquitted.

Phoenix, A. T., Nov. 16.—Pearl Hart, the alleged woman bandit, who was charged with holding up a stage near Florence, was acquitted at the trial before Judge Doan of Florence. Miss Hart addressed the jury in her own defense and pleaded passionately for freedom, that she might return to Toledo, O., to see her fast-failing mother. Immediately after her acquittal the woman was rearrested, charged with interfering with United States mails, and will be tried again.

Deceived the Dogs.

Irvine Depot, Ky., Nov. 16.—The opening day of the national fox hunters' meet was fine. The dogs were cast in the Derby, which is for puppies, at six o'clock. The hunters were up at four and followed the guide to the Kentucky river. They struck a trail and carried it between two mountains. In high delight the horsemen and houndswomen joined in the chase. Sly Reynard sought safety in the mountain side and threw the dogs.

Topeka, Kan., Nov. 16.—J. J. Fry, general manager of the Atchison, Topeka & Santa Fe railroad, announced that he had tendered his resignation of that position. It is said that President Robert Barr will succeed Mr. Fry as general manager, retaining, too, his present title.

GANG OF MASKED MEN

Attempt to Hold Up an Express Car on the Lake Shore Road.

RAILROAD ROBBERS IN OHIO.

Before the Daring Operator Had Time to Get the Packages of Money the Messenger Sounded the Alarm.

Erie, Pa., Nov. 16.—A daring attempt was made by a gang of masked men to rob Lake Shore train No. 2 between Erie and Conneaut at 1 a. m.

The robbers boarded the train at Ashtabula, where it stopped to take water. At a lonely place called Dock Junction, two miles east of Conneaut, the express messenger stepped from one car to another for the purpose of checking up some express bills, when one of the gang sprang into the car and broke into several packages. Before he could get to where the money envelopes were the messenger returned, and seeing the robber at work gave the alarm.

The other members of the gang, who were standing guard on the platform of the west end of the car, then pulled the bell rope, and when the train stopped jumped off and made their escape in the darkness.

A sheriff's posse is now scouring the woods at the point where the affair occurred.

No. 2 carries several thousand dollars' worth of money packages every trip. So far as known the robbers did not secure any booty. The men all wore dark masks and were well armed.

T. T. Gould, general manager of the United States Express company, said he was unable to state whether the robbers had taken any booty. "The car was loaded at Cleveland," said he, "with valuables and general merchandise consigned to Buffalo and eastern points. Before the car left Cleveland it was securely locked.

Cornish Given a Seat.

New York, Nov. 16.—Conditions at the opening of the third day of the trial of Roland B. Molineux for the alleged murder of Mrs. Katherine J. Adams were not encouraging for an early beginning of the work of taking testimony. The panel had been exhausted and the special panel was pressed into service. Assistant District Attorney Osborne and Henry Cornish held a long consultation, at the end of which Cornish was given a seat within the railing in front of the bench. When Molineux was brought into court he looked cheerful and talked with his father and counsel. M. L. Martin was the first juror accepted. He is a retired stock broker.

Will Likely Be Settled.

Chicago, Nov. 16.—The lockout of the sheet metal workers declared by the manufacturers a few days ago, and which has threatened to result in a general sympathetic strike, involving all the unions affiliated with the building trades council, will probably be settled. The firm in whose foundry the strike, which resulted in the lockout, was called, tendered to their employees the amount of money deducted.

Thirty Meteors In Sight.

Chicago, Nov. 16.—Thirty meteors were reported in sight in the eastern sky just before dawn, and several photographs were secured by Professor Hough at Northwestern university. Owing to the brilliancy of the moon at the time of the observations, no Leonids fainter than a star of the second magnitude could be seen. Three particularly bright ones were observed.

Banks Hold Their Bonds.

New York, Nov. 16.—The banks and the trust companies in this city had up to noon manifested no disposition to avail themselves of the government's offer to purchase \$25,000,000 of its bonds. Up to 1 p. m. the treasury had been offered \$2,000,000 worth of bonds, mostly 4s, in small amounts.

A Leak on Cotton Report.

Washington, Nov. 16.—Secretary Wilson of the agricultural department is investigating the complaint of the New York Cotton Exchange that the special cotton crop report, issued on Tuesday, was in the hands of private firms before it reached the exchange.

Franchise Granted.

Constantinople, Nov. 16.—It is authoritatively stated that the Turkish government has approved the concession to the Deutsche bank of a railway extension to Bassorah, a city, and river port of Asiatic-Turkey 270 miles southeast of Bagdad.

Leipzig, Nov. 16.—Herr Moritz Busch, author of a 'Life of Prince Bismarck,' died here.

WEATHER FORECAST FOR KENTUCKY—Probably rain, cooler, shifting winds.

In the death of Hon. Evan E. Settle, at Oventon Thursday evening, Kentucky loses one of her ablest men and Democracy one of her most brilliant leaders. The sad news of his sudden demise comes as a great shock to his friends.

BRYAN THE MAN.
 The New York World is one of those newspapers which finds it very hard to escape from its mistake of 1896. In groping along the way which leads to reconciliation, it has undertaken a serial search for the man whom the Democrats should nominate next year, and in the last issue has reached this critical point:

The man.
 Where is he?
 Bless you, just step up into the high tower and cast your eyes toward Nebraska! From that direction you will see the figure of W. J. Bryan looming up in enlarging proportions. While his opponent of 1896 is cuddling over the privilege of having commanded a popular minority in Ohio, Mr. Bryan has doubled up on any majority he has heretofore received in Nebraska.

There are a few wise men left among the Democratic leaders of New York, who have caught the popular drift, and they do not propose to walk out of the house of their friends in 1900. The doors are wide open for the people to enter, and in the multitudes which will press inward a few absentees will not be missed.

Where is he? Indeed! Standing erect like Saul in the multitude, there can be no difficulty in locating him.

I do not divide monopolies in private hands into good monopolies and bad monopolies. There can be no good monopolies in private hands until the Almighty sends us angels to preside over us.

When you close your factories it will take all the accumulated wealth of the cities to feed your starving men, made starving by your vicious, greedy, avaricious legislature.

There is no question about it. A trust, a monopoly, can lessen the cost of distribution. But when it does so society has no assurance that it will get any of the benefits from that reduction of cost in the reduction of price.

What the government gives the government can take away. What the government creates it can control, and I insist that both State government and Federal government must protect the God-made man from the man-made man.

It means that if the people employed in one factory are not satisfied with the terms fixed by the employer and strike, they can close that factory and let the employes starve while they go on in other factories without loss to the manufacturers.

I may be in error, but in my judgment a government of the people, by the people and for the people will be impossible when a few men control all the sources of production and hand out daily bread to all the rest on such terms as the few may prescribe.

Every unjust tax law is an indirect form of larceny. If, for instance, a man who ought to pay \$10 only pays \$5, and one who ought to pay \$5 pays \$10, the law that compels this contribution from these two men virtually takes \$5 from one man's pocket and puts that \$5 in another man's pocket.

If this government will go out of the business of picking out favorites and follow the doctrine of equal rights to all and special privileges to no man, if it will do that I have no fear that any man by his own brain and his own muscle will be able to secure a fortune so great as to be a menace to the welfare of his fellowmen.

We have not had in this country a taste of a complete trust, a complete monopoly, and we cannot tell what will be the results of a complete monopoly by looking at the results that have followed from an attempt to secure a monopoly, because in an attempt to secure a monopoly the monopoly has been lowering prices to rid itself of competitors; but when it has rid itself of competitors what is going to be the result? My friends, all you have to know is human nature.

A NEW JERSEY CASE

Where a Republican Court Decided That Technical Errors Made Ballots Fatally Defective.

WASHINGTON, Nov. 15.—The Supreme Court of New Jersey, which is composed of Republicans, rendered an important decision yesterday in an election contest case, which at this time is of special interest to Kentucky. It will be seen from the decision that marked ballots were thrown out, as well as all ballots that were technically illegal. The New York Tribune of to-day, in a special from Newton, N. J., says:

Justice Garrison rendered an opinion in the Supreme Court to-day, affirming the decision of the Essex Circuit Court in the election contest between John R. Weeks and Ira A. Kipp, Jr., for Village Trustee of South Orange. Four of the ballots counted for Kipp read, respectively: "Ira A. Kipp," "I. Kip, Jr.," "Ira A. Kipp" and "Kip." As the result of the count, the Board of Elections certified that Ira A. Kipp, Jr., had received 410 votes, and that John R. Weeks had received 409 votes. Kipp thereupon assumed office, and Weeks began his contest, contending that the ballots could not be legally counted for Kipp. Evidence to prove that he was the only person of that name running for the office, and that the ballots were intended for him was rejected by Judge Child, who was sustained by the Supreme Court, which, through Justice Garrison, says:

"The question that arose upon the disputed ballots was not as it might have been under the old law, upon quo warranto, for whom the votes were intended, but for whom, under the new law, were they actually voted—the question to be determined by inspecting the ballots in the light of the requirements of the act concerning elections. Section 85 of the election law of 1898 treats of the official ballot, and prescribes that any voter may erase any name thereon printed and write thereon the name or names of any person for whom he may desire to vote for any office.

"It is further provided that no ballot shall be counted if there shall be on the face or back any marks, sign, designation or device whereby such ballot can or may be identified or distinguished from any other ballot used at such election. Taking these statutory prescriptions, it is not possible to justify the reception of any one of the four ballots that were counted for Kipp and are now disputed. All of them do violence to the second requirement, while failing to comply with the first. They did not have upon them the name of the person for whom they were counted, and they did have on them a designation by which they both could and might have been identified and distinguished from the other ballots used at the election. The Circuit Court is sustained both in its rulings and in its construction of the law, and the judgment is affirmed."

DEEPER INTEREST IN MISSIONS,

Object of the Institute Held This Week at the M. E. Church, South.

The missionary institute at the M. E. Church, South, this week was the second held in the Maysville district under a resolution of the Kentucky Conference. The object is to arouse a deeper interest among the membership in the cause of missions.

Rev. Dr. Vaughn presided at this week's session and there were a number of splendid addresses by ministers and laymen on various topics. Special mention is made of a paper by Mr. W. W. Ball and an address by Mr. R. T. Marshall on "Tithing as a Means of Raising Funds for Missionary and Church Purposes."

The institute will meet next year at Moorefield.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store every bottle guaranteed.

WILLIAM S. McCHESNEY, JR., of Lexington, who says he is in the railroad business, has filed a petition in voluntary bankruptcy. He gives his liabilities as \$85,034.07, while his assets consist of life insurance policies aggregating \$9,000, for which he claims exemption.

MOSHEIM TABLER, physician of New York, has filed a petition in bankruptcy with liabilities of \$94,313, which were contracted principally at Harrodsburg, Ky., from 1887 to 1891. He puts in nominal assets of \$65,010 in real estate, stocks and notes, all of which were assigned on September 5, 1891, at Harrodsburg.

THE newest and prettiest thing in toilet ware is displayed in Ballenger's window to-day. Ebony and silver, also jewel cases, handkerchief boxes, &c. After looking at window display please step inside and see the great variety of beautiful things for Christmas or wedding presents. BALLENGER, the jeweler.

ALMOST the entire seating capacity of the large auditorium of the Christian Church was required last evening to accommodate the crowd that assembled to hear Rev. E. L. Powell. "Christ's Doctrine of Sin" was the subject, the text being taken from the story of the Prodigal Son. In his intensely earnest and forceful manner, the speaker depicted sin as opposition to God's will, a going away from the Father, and that selfishness was at the root of all sin, that it was degrading and inevitably brought ruin and suffering and misery. He closed with a powerful plea to men and women who had wandered away from the Father into sin and dissipation or riotous living to throw off its influence and come to a better and nobler life. Mr. Powell will preach to-night at 7 o'clock on "The Bondage of Sin." The public invited. Come early.

AN experiment tried by the Chesapeake and Ohio Railway Company with the handling of freight at the Cincinnati freight depot will be of interest to railroad men. Some time ago the C. and O. put into operation a plan by which the freight handlers were paid by the number of tons handled instead of by the day. The same plan is in operation at the Cincinnati freight depots of the Panhandle and the L. and N., but the C. and O. could not make it a go. Some time ago the freight handlers struck against the tonnage system, but the company was not ready to abandon the system. New men were hired or old ones taken back as they applied at the same rates. This week, however, the company posted notices that it had been decided to abandon the tonnage system and return to the per diem basis for paying the men. The reason assigned is that the system is unfair to the men, as they cannot make as much as under the old system.

DEBOE TURNED RED

When Col. Scott Offered Him His Boots To Wade in Blood.

LOUISVILLE, KY.—Col. James Andrew Scott, when he arrived in the County Court room this morning, shook hands with Senator Deboe, who was present to witness the count of the votes.

"Senator," said he, "I see you have been talking about wading in blood. Now, I am a bass fisherman, and I have a fine pair of wading boots that come up to my hips. I brought them with me and will be glad to lend them to you if you want to go wading in blood. They'll protect your trousers."

Senator Deboe turned red in the face, looked foolish and said he had been incorrectly quoted in the newspapers.

Judge Thomas Has Been Shedding Tears.

[Washington]Correspondence of Courier-Journal.] "Morg" Thomas, of the Treasury Department, before going to Kentucky to vote, was interviewed by a Washington paper and predicted the election of Taylor by from 40,000 to 50,000. He has returned from Kentucky and again undergone the interviewing process, and claims that Taylor is elected by only 3,000 if the Democrats do not swindle him out of the votes. As he related his story to the reporter of the enormous frauds being practiced by the Democrats, tears fell from his eyes. Judge Thomas is an ancient Republican flower to cry out against election frauds. Where was he when the Republicans were doing the counting in 1876 and 1896?

The Bee Hive

Her Majesty's Corsets.

We take pleasure in announcing that we have obtained the exclusive agency, for this section of Kentucky, for the sale of HER MAJESTY'S CORSETS. This Corset is so extensively advertised, is so highly endorsed by thousands of properly dressed, well-formed women that it requires no further commendation on our part. You'll find it is made of the very best of materials and is guaranteed to retain its shape as long as you wear it. We have in stock four different styles in black and white, and in two qualities. Prices \$2.75 and \$3.25. We also carry at all times a very large stock of R. & G., Armorside, Warner's P. S., P. C. C., Ferris Waists, etc., in all their different shapes and colors, at 50c., 75c. and \$1. Our Corset business is done with a view to satisfy whatever you may need in the Corset line.

Drives in Dress Goods.

The activity in our Dress Goods department has been continuous. With an immense and select stock to choose from, Dress Goods buyers have found it a pleasure and a profit to purchase here. We are still selling 50c. and 75c. wool novelties at 39c. and 50c. respectively. Plaids from 10c. to \$1.95. The 50c. and 59c. goods are worth fully 75c. Henriettas from 29c. to \$1.25. Besides, there are Venetians, Golf Cloths and Serges at exceedingly low prices.

35c. Eiderdowns at 25c.

We bought this lot long before the advance in prices. This timely purchase saves you just ten cents on every yard, judging how others sell the same kind of goods. The colors are pink, blue, tan, white, cardinal. The price 25c. instead of 35c.

THE LEWIS COUNTY CASE.

The Vote of Burtonville and Mowers Precincts Counted Under Mandatory Injunction by Circuit Clerk Jones.

Mr. J. N. Kehoe returned this morning from Vanceburg where he yesterday attended the final session of the Election Commissioners of that county to settle the dispute over Burtonville and Mowers precincts.

The board, by a vote of two to one, upheld the claim made by the attorneys representing the Democrats, and voted against counting the vote of Burtonville precinct, and Mowers only as certified, namely: for Governor, Senator and Representative.

The Republicans then went before Circuit Clerk Jones and secured a mandatory injunction requiring the commissioners to include both precincts in full. The commissioners complied with this injunction, but certified the facts to the State Board of Election Commissioners.

The contention of the Democrats is that the law plainly states that the returns have to be filed with the commissioners within two days after an election. In this case it was four days after the election before any effort was made to complete the returns from the precincts in dispute.

It looks like the Democrats have got a plain case, and that the State Board will uphold their claims.

MAYSLICK BAPTISTS.

They Have Repaired and Beautified Their Historic House of Worship and are Now Holding a Revival.

The Baptist congregation at Mayslick, who so recently beautified and renovated their church edifice, this week entered upon a series of delightful morning and evening services in the interest of which the beloved and efficient pastor, Rev. Mr. Holly, in securing the assistance of Rev. Mr. Gwatkins, of Lawrenceburg, Ky., goes straight to the needs, the heart of a people reaching after the higher and better things of life. Not possible to have made a more judicious selection. Able, scholarly and impressive is this eloquent expounder of spiritual truth. An expert in Biblical knowledge as is manifested in the deep solemnity that marks his appeals for more earnest Christian living on the part of Christians, as also in the persuasiveness, scarcely to be resisted, to those who never yet have obeyed the Master's call. Of fine and attractive appearance, in pleasing voice and manner, a soft mellowing is given the force of his impressive unfolding of the law and experiences of spiritual life. Those privileged to hear will long treasure and acknowledge the influence. Many are the hearts who are earnestly wishing for a true revival in this historic old Baptist Church, that quite a decade since celebrated in honor of its centennial milestone.

ANOTHER EX-MAYSVILLIAN WEDS.

Marriage of Mr. John F. Cablish and Miss Georgia Louise Bedell, of Portsmouth, Wednesday.

[Portsmouth Times.]

The home of Mrs. Sarah Bedell, on Courtstreet, was gaily decked with chrysanthemums, palms, begonias and garlanded with graceful vines for the wedding which took place there at 10:30 o'clock Wednesday.

The bride, Miss Georgia Louise Bedell, is the youngest daughter of the household, and so much of a family favorite that her departure from home is most sincerely regretted. The groom, John Frederick Cablish, formerly of Maysville, Ky., is now of the firm Cablish Bros., bakers and confectioners, at Charleston, W. Va.

While waiting for the bridal party to descend to the parlor, Mrs. Wm. Ferguson and Mrs. Wm. Oldfield, sisters of the bride, entertained those present with piano duets—"Secret Love," "Qui Vive" and selections from the opera "Martha." Finally the inspiring strains of Mendelssohn announced the entrance of the bride and groom and their attendants. The officiating minister, Rev. J. D. Heron, was closely followed by the little flower girl, Ruth Louise Ferguson, the bride's niece. She was as airy as a fairy in her dainty pink figured organdie and carried pink chrysanthemums tied with pink moire to match her neck ribbon and sash. The bride and groom next entered and, as usual, were the cynosure of all eyes. The bride was unusually charming in a gown of white Persian lawn, made demure, and trimmed lavishly with Valenciennes lace at the waist and on the ruffles of the skirt. Her girdle and stock and ribbon streamers to

her bouquet of Bride roses were of rich white satin ribbon. Her flowers were the gift of her mother's brother, Superintendent Geo. W. Prout, of the Morganza, Pa., reform farm.

While the ceremony was said the bridal party stood near an embankment of plants and flowers, and just beneath a canopy of ferns, chrysanthemums and red-berried vines. Softly played the musicians, "Call Me Thine Own," as the bride's brother-in-law, Wm. C. Ferguson, gave the bride to the groom. Thus they continued to play until the benediction was pronounced and congratulations in order.

About forty guests partook of the wedding breakfast, served at a long table in the dining room. The table was adorned with an elaborate array of choice pieces of linen, embroidered in pink. Pink and white chrysanthemums, Marchal Neil roses, ferns and asparagus green also graced the festal board.

Many were the gifts received, including both useful and decorative, for the new home in Charleston, W. Va., where the bride and groom will go to house-keeping immediately upon returning from a wedding trip to Maysville and Augusta, Ky. In the latter place they will be the guests of the groom's parents, Mr. and Mrs. John Cablish. At Maysville they will visit the groom's aunts, Misses Sophia and Anna Traxel.

The out-of-town guests at the wedding were the groom's mother and three sisters, Misses Emma, Mena and Marie Cablish, their cousin, Wm. Traxel, and friend, Miss Bertha Ort, of Maysville, Ky., and Miss Ella Ferguson, of South Webster.

That the wedded life of Mr. and Mrs. Cablish may be replete with happiness is the wish of all who know them.

KNOX COUNTY FRAUDS.

Judge J. D. Black Says the Proceedings Against the Election Commissioners Were Shamful.

FRANKFORT, Ky., November 15.—Judge James D. Black, of Barbourville, who was here to-day on business before the Court of Appeals, gives testimony to the shameful proceedings that followed the meeting of the County Election Board of Knox County, and the methods employed by the Republican leaders and Judge to intimidate the members of the election commission. He said:

"The tactics employed by a Republican Circuit Judge and the party leaders of the county of Knox in compelling the County Election Commission to certify the vote of that county were the most shameful proceedings ever witnessed by the people of that section of the State, and the State Election Commission will be given an opportunity to learn its full details.

"The County Commissioners were proceeding quietly with their work without intimidation to anyone of what they intended to do in the matter of throwing out votes, when the Republicans sent runners all over the county to bring in a mob to intimidate them, and had their Circuit Judge come over from London and issue a mandamus compelling, not the counting of the votes of all parties, but of all the votes cast for Republican candidates. This gave the County Commissioners absolutely no discretion and robbed them of all their powers."

Pennsylvania and Kentucky Election Laws. [Pittsburg Post.]

Newspapers hereabouts of the Republican and imperial type that accept with a certain glee an infamously cheating voting system in Pennsylvania, with the fact that 75,000 illegal votes are practicable and have been polled under it in Philadelphia, are much concerned about Kentucky law and practices. Politics is pretty hot in that State, but in comparison with the deep-seated rascality that rules the polls in Pennsylvania it is purity itself. It doesn't become Republicans to be so virtuous about Kentucky and so immoral at home. Stone as Governor, elected by fraudulent votes and crooked returns, vetoing a constitutional amendment intended to secure an honest vote and fair count, and doing it in the interest of the rascals who elected him, epitomizes the Pennsylvania situation and measures the sincerity of those concerned about fair elections and honest counts in Kentucky.

THE TRUST EVIL.

Essence of Hon. W. J. Bryan's Speech on the Subject at the Recent Conference at Chicago.

Man is the creature of God and money is the creature of man.

Monopoly in private hands is indefensible from any standpoint and intolerable.

Money is made to be the servant of man, and I protest against all theories that enthrone money and debase mankind.

The first advantage of a monopoly is to lower the price of the raw materials furnished by the people to that combination.

If under a monopoly the price is reduced the objections to a monopoly from other standpoints far outweigh the financial advantage that the trust would bring.

I believe the doctrine that God made all men of the same dust and did not make some to crawl on hands and knees, and others to ride upon their backs.

The defense of the monopoly is always placed on the ground that if you will allow people to control the market and fix the price they will be good to the people who purchase of them.

Senator Goebel's Home. [Owensboro Messenger.]

After all the vituperative stuff sent out from Covington about Goebel, predicting he would lose his home county, he carried Kenton by 2,216, more than double the majority of Bryan, and not a specification of fraud in the election has been made. They are always going to carry Kenton against Goebel, but every time he runs his majority is larger.

In late years men have made fortunes out of the tailings of gold mines. The mills in which the ore formerly was crushed and the crude processes then in use allowed a large percentage of the precious metal to escape, and the loss amounted in some cases to a fortune. The stomach is just like a stamp mill in this respect, that when it is not in perfect order it allows the escape and waste of much of the precious nutriment contained in the food. That loss when continuous means the loss of man's greatest fortune—health. Science offers a remedy for this condition in Dr. Pierce's Golden Medical Discovery. It corrects the "weakness" of the stomach, prevents waste and loss of nourishment, and puts the stomach and organs of digestion and nutrition into a condition of health which enables them to save and assimilate all the nutriment contained in the food which is eaten. In all cases of constipation the use of Dr. Pierce's Pleasant Pellets will speedily and permanently cure disease.

Shootin' STARS

Are one thing and shootin' game is another. The two subjects scarcely bear any relation to one another, unless it be in the disappointment each affords. Weather conditions sometimes interfere in the meteoric event, while the failure to borrow a neighbor's Gun often postpones the other. This is fine weather and the hunting season is on. No need to borrow now, for we are making prices so low this season that every sportsman can afford to own his own Gun. We sold lots of these goods last fall, but are anxious to make this season's sales the greatest in the history of the house and are offering special inducements to that end. In the matter of

GUNS and Ammunition,

we carry a full line of everything offered by the trade.

Recently we had something to say on the subject of WIRE FIELD FENCE. The large invoice we purchased before the advance in prices has arrived, and we have some convincing arguments in store for prospective buyers who will come in and talk the matter over with us.
